CAREER OBJECTIVE

To obtain a challenging engineering position where I can apply my mechanical engineering knowledge, technical skills, and practical experience while contributing to organizational growth and continuously developing my professional skills.

EDUCATION

B.Tech, Mechanical Engineering

AVN Institute of Engineering and Technology (AVNIET), Hyderabad | 2021 – 2024

Diploma, Mechanical Engineering

Government Model Residential Polytechnic, Gajwel | 2018 – 2021

SSC

Model Mission High School, Hyderabad | 2017 – 2018

PROFESSIONAL EXPERIENCE

Quality Control Engineer — HBL Engineering Ltd., Hyderabad

June 2025 – Present

Project: Kavach (Train Collision Avoidance System - TCAS)

- Inspect mechanical modules during in-process and final inspection as per specifications.
- Provide SAP clearance for inspected modules after quality verification.
- Inspect pneumatic components installed in BIU of Loco.
- Perform dimensional, defect, fit, and finish inspections using precision instruments.
- Prepare dimensional inspection reports and maintain quality documentation.
- Support RDSO inspections and ensure compliance with quality and safety standards.
- Conduct ESS testing, including thermal cycling and vibration, on Kavach modules.
- Coordinate with Production and Engineering teams to resolve quality issues.

TECHNICAL SKILLS

Quality & Inspection: Quality Control, Dimensional Inspection, RDSO Inspection, In-Process & Final Inspection, Precision Measuring Instruments, Quality Documentation

Mechanical: Mechanical Components, Pneumatic Systems, Welding, Fabrication, Workshop Practices, Basic NDT, R&AC Systems

Testing: ESS Testing (Thermal Cycling, Vibration), Functional Module Testing

Software: AutoCAD, MS Excel, MS Word, MS PowerPoint

INDUSTRIAL TRAINING

NSIC, Hyderabad

June 2020 – December 2020

- Gained practical experience in Refrigeration & Air Conditioning systems, Arc, MIG, TIG, and Gas welding.
- Learned basic NDT (Non-Destructive Testing) methods and workshop safety practices.
- Worked with workshop tools, equipment, and basic mechanical maintenance procedures.

ACADEMIC PROJECTS

3-Speed Gearbox Mechanism

Team of 5

- Fabricated, and tested a 3-speed gearbox mechanism across varying speed conditions, studying torque transmission and gear operation.

Can Crushing Machine

Team of 5

- Fabricated a mechanical can-crushing machine and evaluated the force required for crushing and overall working performance.
- Worked on component assembly, mechanism alignment, and functional testing to ensure smooth, reliable, and efficient machine operation.

ACHIEVEMENTS

- Secured 2nd Prize in Technical Paper Presentation.
- Received Medal of Appreciation in Intellectual Olympiad.
- Coordinated academic project teams, collaborating closely with faculty mentors.
